

Recycle bikes Get kids riding Make connections

Dr Cranky's
BIKES FOR KIDS

All this can be done with remote operations while addressing CoVid-19 social distancing and sanitising recommendations.

Your School

1. Drop off

People contact Dr Cranky's so they can donate bikes or drop off bikes for repairs. Cable locks are left locked on fence or racks at the school. The lock combination is sent to the owner via text or private message.

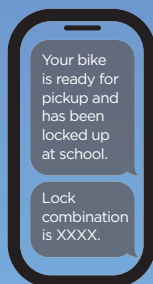

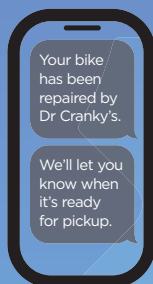

2. Volunteer collects the bike

Bike is sanitised and unlocked by the volunteer. Information about the bike is entered into the Dr Cranky's database, including details of the donor or owner.

3. Volunteer fixes the bike at home

Parent volunteers are given a basic tool kit, work stand, and spare parts (tubes, bells, reflectors, brake pads etc). Volunteer takes the bike home for repair/checking. When ready they lock the bike up at school again with the cable lock.

4. Messaging the owner

When a repaired bike is ready, the volunteer sends a text or private message to the owner.

5. Spreading awareness

Pictures of donated bikes that are ready to give out are posted on the Dr Cranky's website, FaceBook page, and in school newsletter/communications.

Dr Cranky's
BIKES FOR KIDS

Applying for a recycled bike

We can continue to get kids and adults riding while addressing CoVid-19 social distancing and sanitising recommendations.

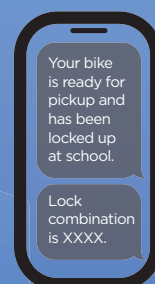

1. Contacting Dr Cranky's

People wanting a recycled bike contact a Dr Cranky's volunteer via text, private message, or FaceBook. Volunteer information is included in communications from each school.

2. Volunteer locks the bike at school

The finished bike is sanitised and locked at the school by the volunteer.

3. Messaging the new owner

Volunteer sends the lock combination to the new owner so they can pick up their new bike.

4. New owner picks up the bike

The donated bike is picked up, and another child can begin to enjoy riding.

Rides last month	<input type="text"/>

5. Data is gathered

Volunteers enter log card details into the Dr Cranky's database via Google Docs. This information is used to promote the benefits of the Dr Cranky's program.

Fast Facts

Dr Cranky's is a registered charity.

 **Over 2,200 bikes recycled** in the local community

4,300 extra bike rides each week by school families

50% of the people receiving bikes or repairs **had not ridden** in the preceding month

Nearly all people receiving bikes became regular riders with **on average 3.5 rides a week**

Almost **80%** of previous non-riders were **riding at least once a week**

Donations from those receiving bikes **covered the running costs** of the program
